

"CREDO" d.o.o.
Pariske Komune 4/6
Vranje
Serbia & Montenegro
Director: Goran Savić, dipl. el. ing.

Date, 17. 03. 2006.

To Whom It May Concern,

Mercury Engineering D.O.O. Beograd have successfully completed the design and build contract on building GTC Novi Beograd, Serbia. The contract included mechanical and electrical installation.

For electrical installation we had the company "CREDO" d.o.o. Vranje as our subcontractor. The electrical scope of works included the following installations:
- low voltage installations, lighting, mechanical equipment power supply, automatics, fire alarm system, grounding, lightning protection.

"CREDO" has shown understanding for the Client's needs and carried out the works with great workmanship and leadership.

Without any reservation We can confirm that "CREDO" d.o.o. Vranje achieved all of the work within the contract with great success due to both the skill and experience of its management team and the highly professional and skilled engineering team which was able to meet all the challenges. Throughout the project, "CREDO" d.o.o. Vranje responded promptly to all of our requests for additional support, completing each task in time to the highest standard. The success of "CREDO" d.o.o. Vranje has qualified them to participate in current and future tenders for new contracts with Mercury Engineering D.O.O. Beograd.

Therefore, We would have no hesitation in recommending "CREDO" d.o.o. Vranje to perform any project in the services installation industry, as a very capable and professional contractor who is committed to meet customers' expectations.
